

ARE YOU AGED OVER 65?? Did you know....

We provide **phone consultations** for them days that you might not feel up for coming in, just ring reception and ask.

We have **fragility register**, to monitor more closely patients who aren't as mobile as they previously were and provide falls assessments for patients who have noticed they are more prone to falling over

If you consent to having a **Summary Care Records** sharing, we can update you records and have your basic health information available to ambulance services and hospital immediately in the case of an accident or emergency.

We have **Community Matrons** attached to practice to be able to step in and help with health concerns and they can liase with your GP directly on behalf of you.

We provide **Over 75 Health Checks** to patients over the age of 75 with Jill the Practice Nurse

We can refer you **Community Intermediate Care Services** who are The aim of the service is to prevent people from being admitted to hospital if possible, support people to return home after a recent hospital admission, and enable people to live at home supported and safe.
