OUT OF AREA PATIENTS

Please be advised we do not take out of area patients. This is to ensure our quality of service we provide to those registered within our catchment area.

Any patients who move out of area will need to register with a new GP within 30 days. The patient will receive a letter informing them of the process and will need to ensure they have enough medication ordered so ensure their own safety during the transition.

Any patients struggling to find a new GP can use the NHS Choices website for information on local GP's in their area.
